Flail Mower **ATV**

Attached ATV/Tricycle

ATV-towed flail mower – compact

lightweight, and sturdy. Easy to transport, ideal for use in gardens, farms, lawns, or football fields. Safe to operate with a special flat cutting system.

Grass catcher and protective cover to prevent stones or branches from scattering.

Special rear roller to protect blades during operation.

Skid shoes for adjustable cutting height (3 levels).

Special rear wheels designed to prevent punctures and improve access to tree bases.

- ✓ Horizontal flail blade system cuts more finely than normal mowers (3–4x better).
- ✓ Special rear roller to protect blades during operation.
- ✓ Skid shoes for adjustable cutting height (3 levels).

High power, easy handling, clean cuts anywhere.

Light Duty

- Engine: 7 HP
- Suitable for light work such as thin grass, football/golf fields, no large branches.

Heavy Duty

- Engine: 13–15 HP
- Suitable for heavy use: thick grass, bushes, rough terrain.

Flail Mower **ATV**

Attached ATV/Tricycle

Types of Blades

Details and Differences in Usage

Can effectively cut tough grass, vines, and creeping plants.

Specially designed in a Y-shape

Y-shaped lawn mower blades increase the cutting area in a single pass, allowing for faster grass cutting.

General Features

Strong, durable, long-lasting.

Made from high-quality steel, impact-resistant, not easily broken. Hardened for extended lifespan.

Suitable for all types of grass cutting.

Whether it's normal grass, overgrown grass, or medium-sized weeds, the Y-blade can handle it. Compatible with EXC-L/H excavator-mounted mowers, ATV mowers, PTO-L/H tractor-mounted mowers, and Durian models.

Balanced weight, smooth cutting, no vibration

Designed for left-right balance, stable rotation, no shaking. Reduces vibration during high-speed and prolonged use.

- ✓ User-friendly and highly maneuverable
- ✓ Labor- and time-saving
- ✓ Tough and ready for heavy-duty use
